

“Once in a Blue Moon”

Night Hike with the Quogue Wildlife Refuge

Come join the Recovery Center East on a very cool, fascinating and lively night hike that only happens once in a BLUE MOON. This will be the first blue moon of the New Year for 2018. Let's go enjoy some night vision activities under the light of the moon.

The walk will last approximately 1 ½ hours (from 5:00PM – 6:30PM). A full moon is called a blue moon when it is full twice in one month.

It will cost \$10 to participate in the walk.

We will be leaving from Synergy Center on Wednesday, January 31st at 3:30PM.
